Subject: Document for AAW's review
Attachments: Houses of Worship - Healthy Environments Workbook BWD Consolidated Edits 092519.docx; HealthyHousesofWorship2019_booklet-v1.pdf

Hi Alana and Aaron,

Please see the attached documents for AAW's review. This is the booklet that he will announce on the 10/2 faith leaders call.

The attached word document is the up-to-date draft that requires AAW's review. The PDF document is outdated, but I'm attaching it and ask that you share it with him so he has a sense of what the final document will look like when it's formatted.

Please give me a call if you need any more clarification.

Thanks,

Brett

Brett Doyle

Show Time As: Busy

RA Meeting Agenda
Seattle, Washington
8a to 2p Pacific Time

1. Introductions (8a-8:10)
2. NPM Business (8:10-9:40)
 - a. OLEM (8:10-8:40) (Peter Wright)
 - b. OAR (8:40-9:10) (Anne Idsal)
 - c. OECA (9:10-9:40) (Susan Bodine)
3. Recycling / Food Waste Initiative (9:40-10:00) (Peter Wright and Pete Lopez)
4. Break (10:00-10:15)
5. Principals Lightening Round (10:15-10:45) (Doug Benevento)
6. RA – NPM General Discussion (10:45-12) *See list of topics below*
7. Break / arrange working lunch (12-12:20)
8. RA – NPM General Discussion continued (12:30-1:45)
9. Action items, Q4 RA event and close of meeting (1:45-2p)

RA – NPM General Discussion Topics:

- RA-NPM communication (best practices; regional roll-outs; successful regional visits; new rule implementation) (Doug Benevento/Megan Garvey)
- RA priorities list and regional initiatives follow up/close out (Doug Benevento/Megan Garvey)
- End of year reports (e.g. R8's 2018 report) (Doug Benevento)
- National priority: Deregulation (Doug Benevento)
- Lead Region program (Jim Gulliford)
- ATSDR communication (Cathy Stepp)
- Acquisition of EPA coins (Mike Stoker)
- State Director meetings (Greg Sopkin)
- Drinking Water Systems – forecasting/predicting problems (Cosmo Servidio)
- Viability of Regional HQ's in the next 5-10 years. When to transition? (Mike Stoker)
- Regional cross boundary issues (Greg Sopkin)
- Expediting determination of EPA PFAS exposure limits, etc., and lab capability for PFAS, including ability to detect small amounts (pico/litre) (Ken McQueen)
- Chloroprene (Ken McQueen)
- Produced water from oil and natural gas development (Ken McQueen)

**Agenda item and discussion topic facilitators identified in parentheses above.*

GREEN LIES MATTER

Bloom Energy: Powered by Biogas

Biogas has become an important weapon to combat climate change. The destruction of methane, a biogas component with greater than 26 times the global warming impact as CO₂, prevents harmful emission to the environment. Businesses and public organizations are utilizing biogas to produce electricity and improve their operations. Preventing emission and utilizing methane for primary power will displace electricity derived from the vulnerable, polluting, combustion-driven electric grid.

Bloom Energy is pioneering the effective use of fuel cells for onsite power generation using biogas. Key market applications such as dairies, landfills, wastewater treatment plants, and agricultural operations provide biogas that Bloom Energy technology can fully utilize. Bloom Energy’s biogas solution is differentiated and provides the following value:

- ✔ Highest electrical efficiency in the marketplace generates maximum high-value power.
- ✔ Proprietary pre-treatment conditioning system removes impurities in biogas streams.
- ✔ Industry-leading reliability reduces maintenance costs and grid demand charges.
- ✔ Highest-ever power density minimizes application footprint.
- ✔ Combustion-less operation removes air permitting requirements in many installations.
- ✔ Turnkey execution and Bloom-provided service minimizes site maintenance needs.

Contact our team to learn more about how Bloom Energy can make the most of your biogas and deliver maximum value to your business.

Subject: Fwd: IKEA's retail arm is investing \$2.8 billion in renewable energy — Quartz

Mr. Roth and Mr. Ward

Good to see Ikea makes no mention of the dirty Bloom Boxes. You do know that the US EPA intends to fine Bloom for hidden hazmat even though Bloom has hired a global warming denier to lobby for them.

Bloom's IPO is a bust and many are suing them for fraud in the IPO. Colin Powell lost \$3.9 million of the \$5 million he "invested" to prop up the fraudulent IPO.

Do you still run those dirty boxes that need decoking?

Lindsay Leveen
